SUBJECT INDEX TO VOLUME 108

PAGE

Access to Social Services Records 41–44
access policy development 41
data protection 42
ethical and practical issues 41, 43
path to access 42
potential effects of access 43
rise of consumerism 41
social work ideology 41
Advisory Council on the Misuse of Drugs 1
AIDS — global review 121–124
countries reporting to WHO 122
epidemic of reaction and response 121
epidemic of resulting diseases 121
epidemic of virus infection 121
global overview 121
global programme on AIDS (SPA) 1987 122
need for international co-operation 124
preventing transmission 124
research for vaccine 123
role of WHO 121
screening and social response 123
transmission of the virus 122
uncertainty in estimated numbers 121
WHO global strategy 122
world wide problems 121
zidovudine (AZT) and drug research 123
Alcoholic liver disease 211, 212
age and sex differences 212
Asians and non-Asians 211, 212
Asian susceptability to cirrhosis 212
evidence from liver biopsies 211
Arsenic in Cornwall 159
arsenic in plants 159
copper arsenite (Scheele's green) 159
geochemistry and health 159
high concentration in old dumps 159
implications of chronic intake 159
soil arsenic levels 159
Asthma and indoor moulds 99-101
contributory role for mould 101
damp patches in houses 100
moulds in houses of asthmatics 100
skin tests to certain moulds 99

Back and neck problems 182–184
causation of problems 184
in Hong Kong teaching institution 182–184
relationship to age and sex 183
relationship to exercise 183
relationship to posture 183
suitability of furniture design 183
Belfast leisure centre users 153–158
age range 157
devices overcoming difficulties 155
difficulty during evacuation 155
disability profile 155–158
fire safety and the disabled 155
frequency of visits 157
mobility and age 157
need for further study 158
use of facilities 157
Blindness — prevention in India 226–227
causes and suggestions 226
incidence 226
need for education 227
Book Reviews 37, 75, 113, 148, 190, 227

Consciousness — altered state in adult Ethiopians 173–175
age pattern 173, 174
danger of organophosphates 175
definition of condition 173
diseases involved 173, 174
non-traumatic coma 173, 174
role of hypertension 175
Cutaneous leishmaniasis in Saudi Arabia 60, 61
age incidence 61
clinical diagnosis 60
culture of lesions material 60
epidemiological aspects 61
examination for amastigotes 60

PAGE

lesions characteristics 61
reservoir rodent animals 61
seasonal variation 61
seriological diagnosis 60
transmission by sandflies 61

Dental caries among children in Kenya 32, 33
age distribution of children examined 32
dental fluorosis in high fluoride regions 32
fluorosis and dental caries 32
need for further study 33
Doctors and health professionals 15–19
advantages of psychiatrists 15
assessment of different psychological treatments 17
brain dysfunction and heredity 16
case of Jasmine Beckford 18
disadvantages of non-medical social workers 19
diagnosing mental illness 15
importance of medical skills 19
importance of placebo effect 17
importance of prescribing in mental illness 15
ineffectiveness of much social work 18
lack of scholarship in social work 18
need for objective evaluation 18
social workers antipathy to science 17
Drug education in Scotland 102–103
12–14 year olds 102
decision making skills 103
dissuasion skills 103
parental invovement in programme 103
rejection skills 103
Drug misuse in U.K. 83–85
Addicts Index 83
Advisory Council on Misuse of Drugs 84
drug misuse and AIDS 85
Joint Care Planning Teams (JCPT) 84
Joint Consultative Committees (JCC) 84
Misuse of Drugs Act (1971) 83
policy and service development 83
present problem 83
Regional Drug Advisory Committee 84
Regional Drug Problem Team 84
self help and family support groups 85
training staff 85
treatment and rehabilitation 84
Drug taker problem 1–3
Advisory Council on Misuse of Drugs 1
assessment of drug takers 1
dependent drug use 1
experimental drug use 1
getting off drugs 2
harm minimisation 2
recreational drug use 1
residential rehabilitation 3
self help organisations 3
staying off drugs 2
Treatment and Rehabilitation Report 1982 1
Diseases
AIDS 121
Asthma 99
Cutaneous leishmaniasis 60
Haemophilus influenzae 180
Periodontosis 110
Skin cancers 69
Systemic lupus erythematosus 90
Tetanus 62
Tuberculosis 188
Typhoid 97

Elderly in Hong Kong sheltered housing 64–68
activities of daily living 64, 65, 68
age and sex distribution 65
dietary habits 65, 68
disability-free living 64
foods, daily consumption 67
health related symptoms 66,68
health status 64–68
increasing life expectancy 64
medicine taking 67

PAGE

mental health 65, 68
monthly food budget 66
physical health 64, 65, 66, 68
smoking habit 65
social welfare intervention 67
socioeconomic status 64, 65, 67
Ethical problems and medical technology 86–89
abortion 87
AIDS management 89
death postponement 88
genetic engineering 86
prevention of malformations 87
transplant surgery 88
treatment of cancer 88

Feeding practices and birth weights in Southall 77–80
anthropometry measurements 78
Asian babies 77
increase in breast feeding 1975–80 77
infant feeding practices 78
influence of ethnic origin 77
mixed ethnic group in Southall 78
need for education on breast feeding 80
solid food introduction 79
Female incontinence — the Basingstoke Project 207, 208
assessment in clinic 207
discharged patients survey 208
effects of age and pregnancy 208
health education 208
role of advisers 208
Food additives and nutrition 6, 7
food processing 6
need for varied diet 6
nutritional criteria 7
requirement for foodstuffs 6
role of chemical additives 7
types of additives 7
Food safety, public perception 130, 132, 134, 138, 146
attitudes to experts 140
chemical preservatives 134, 139
consumer anxiety 134
Consumers' Association surveys 138,139
degrees of safety 140
Diet and Cardiovascular Disease Report (1984) 131
Diet and Coronary Heart Disease Report (1974) 131
dietary fibre cult 147
food additive myths 138
food intolerance 139
food poisoning and hygiene 134,139
food safety hazards 131
growth of supermarket chains 130
health foods 133
increase in products available 130
influence of media 140
irradiation of food 138–140
junk foods 133
MAFF survey (1986) 138
NACNE Report (1983) 132
natural toxicants 139
need for consumer education 135
nutritional misnomers and misconceptions 146–148
public misconceptions 132, 139
recognising public concern 141
resistance to change 139
saturated fat controversy 146
semantic defects and expert opinion 148

Head Lice — community approach 201
clinical diagnosis 202
contact tracing 202
detection of infestation 201
immune reactions 201
prevention 202
treatment 202
Head louse infestation 11–14

SUBJECT INDEX

PAGE

age distribution of patients 12
cosmetic acceptability 14
infestation following treatment 12
infestation prior to treatment 12
phenothrin safe and effective 14
side effects 13
use of phenothrin lotions 11
Health activities in Australian high school 20–26
absenteeism and clinic attendances 23
analysis of data 21
collection of statistics 21
health promotion activities 25
health screening 20, 22
influence of parental occupation 23
management of childrens' health 21
medical problems 22
reasons for clinical attendances 24
role of school nurse 20
school medicine chest contents 20
school nurse and primary health care 26
school nursing costs 25
Health attitudes among students 27, 28
attitudes to self-responsibility for health 28
health promoting behaviour of the colleges 28
in King Saud University 27, 28
sociodemographic characteristics of three colleges 27
Height and weight of children 166–172
Dunedin Multidisciplinary Health and Development Study 160
in New Zealand and United States 166–172
median height and weight 167
St. Louis Baby Study 166
St. Louis and Dunedin children comparisons 167-172
Hypothermia — management in hospital 153–154
clinical courses 153
conservative management 154
rapid central warming techniques 154

Illness concepts — medical and lay 185–187
apostolic function of doctors 185
loss of human understanding 186
need for reconciliation 187
objective forms of diagnosis 185
reasons for differences 186
western society approach 185
Infant feeding 199–200
age and sex distribution 199
age at start of breastfeeding 200
age of weaning 200
demographic characteristics and nationality 199
in King Khalid University Hospital 199, 200
preferred feeding methods 199
reasons for stopping breast feeding 200

Letters to the editor 152
Licensed premises — health promotion in 209, 210
extent of pub use 209
Here's to Your Health Scheme 210
personal preferences for facilities 210
views on health choices 210
Litter control problems 46–54
City of Westminster 46
City of Westminster Bill 53
cost of current services 50, 52
legislation 53
need for education 54
planning and urban design 52
refuse collection 48, 53
street cleaning service 47
street washing 48
vagrancy problem 48
waste removal by barge 47
Westminster Cleaner City Campaign 50, 51
Local radio and dietary change in UK 142–145
approaches made 143

PAGE

collecting information 142
coverage of food and health issues 142
local radio and nutrition education 144
opportunity for health workers 145
postal questionnaire 142
quality of media output 144
sources of information 143
topics mentioned by respondents 143

Meat, drugs and growth promoters 125, 126
control of vetinary medicines 125
European Community Directives (1983) 125
food surveillance 125, 126
Medicines Act (1968) 125
monitoring residues in meat 126
residues in meat 125
safety of meat in the future 126
Meat processing and retailing 127–129
consumer trends 127
EEC-wide labelling 128
establishing standards 127
healthier living themes 128
Meat Products Regulations (1986) 128
monitoring system requirements 129
need for education in reporting 129
Muscle repair for esophageal speech 119, 120
monitoring of clips 119
obtaining esophageal speech 120
progress in reconstructive surgery 120
Myofascial pain dysfunction syndrome (MPD) 81, 82
behavioural methodology 82
muscle activity 82
pain in dentistry 81
stress factors 82
temporomandibular joint pain (TMJ) 81
treatment of MPD 87

Nutrition labelling internationally 136, 137
Codex Alimentarius Commission 136
Committee on Medical Aspects of Food Policy (COMA) 136
common units in use 137
content and label layout 137
declaration of nutrients 136, 137
educational and information programmes 137
legislation on labelling 136
voluntary nutrition labelling 136, 137
Nutrition — recent advances 191–198
alcohol and health 195
calcium and osteoporosis 194
cost of pregnancy 193
dietary advice 194
dietary surveys 191
diseases of affluence 193
food intolerance 196
garlic in diet 195
growth and development 192
infant mortality 192
malnutrition amidst plenty 193
nutritional goals 197
nutritional status assessment 191
obesity 197

Pain management using hypnotic techniques 176–179
age regression 178
changes in perceived pain 177
changes in significance of pain 177
hypno-analytic techniques 178
hypnotic amnesia 178
hypnotic anaesthesia 176
interspersal techniques 178
neuropsychological imageries 178
orientation distortions 177
place of hypnotic techniques 179
redirecting course of pain 177
Patient participation 55–56
goals and practice 56
in decision making 55
in quality of life 55
patient-doctor interaction 56

PAGE

patient power 55, 56
undeveloped concept 55
Periodontitis in Nigerian hospital 110–112
age and sex of subjects 111
frequency distribution 110
socio-economic status of subjects 111
systemic diseases with periodontal manifestations 112
Polysaccharide vaccine 180, 181
nature of the vaccine 180
new Hib vaccines 181
prevention of *Haemophilus influenzae* type b 180
Primary health care 213–216
constraints and traditional attitude 216
delivery of primary health care 215
health priorities 214
health service provision 214
Jamaican statistics 1960–1977 213
in rural Jamaica 213–216
Product liability 217–219
consumer and safety 218
Consumer Protection Act 1987 217
defences open to producers 218
joint and several liability 217
parameters of liability 218
product defect 218
time limits for bringing actions 219
Poultry Meat Inspection 39–40
after purchase treatment 40
duties of Inspectorate 40
history 39
licensing 39
RSH involvement 40
the Health Mark 40
the Inspectorate 39
Powered two-wheeled vehicles 45
casualties 1986 45
delays in seeking treatment 45
problem of under reporting 45
records involving riders 45
Psychiatric treatment for mental disorders 104–109
different treatment models 104
importance of different approaches 105
integrated approach 105
integrated psychiatric treatment 107
psychotropic medications 106
rare therapeutic approaches 106
research and integrated treatment 108
treatment of phobias 109
Psychiatrist as priest 160–163
conscious awareness 163
definition of a priest 160
faith of psychiatrist 162
functions of doctors 160
functions of priest and psychiatrist 161
neurotic guilt 162
problem of guilt 161
religious experience of patient 162
science and spirituality 162
Psychological effects of unemployment 29–31
built in pressures of unemployment 31
creation of disenchanted people 31
decine in mental well-being 31
in the 1930s 29
in the 1970s and 1980s 30

Radon in Cornwall 57, 58
distribution worldwide 57
high level in Cornwall 57
National Radiological Protection Board 58
need for geochemical surveys 58
radon in the body 57
Royal Commission on Environmental Pollution 58
Reproductive pattern among Saudi women 94–96
age at menarche and pregnancy outcome 94
decline in age at menarche 96
miscarriages and age at menarche 95
Road traffic accidents in Riyadh 34–36

SUBJECT INDEX

PAGE

factors leading to motor vehicle accidents 34
injury and fatality rates 1974–85 35
population and number of vehicles 1974–85 35

Sanitation in Oyo State 164, 165
disease and poor sanitation 164
domestic responsibiity 165
excreta disposal systems improvement 164
health education intervention 165
refuse disposal 164
Schizophrenia — family care in 4, 5
cost of keeping a patient 4
family background 4
family sessions 5
Southampton project 4, 5
Skin cancers in Australia's N.T. 69–74
basal cell carcinoma 69, 72
malignant melanoma 70, 72
multiple skin cancers 70
non-aborigines age and sex specific incidence 69, 71, 72
site distribution of skin cancer in non-aborigines 73
squamous cell carcinoma 70, 72
trend in annual registration 70
Social services records — see access 41
Society reports and notices [ii] in numbers 1–6
Stats 19 data — police officers' attitude 205–206
comments on Stats 19 206
data collection at scene 205

PAGE

effects of completion delay 205
need for review 206
reasons for delay 205
use of Stats 20 206
Systemic lupus erythematosus (S.L.E.) in Riyadh 90–93
age and sex distribution and presentation 92
difficulty of diagnosis 93
distribution and age of groups 91
incidence and prevalence 90
nature of S.L.E. 91
predisposing factors 93
S.L.E. and related diseases 91

Tetanus in Nigerian women 62, 63
connection with menstruation 63
educational status influence 62
focus of infection 62
genital factors 62
need for immunisation 63
role of health education 63
Tritium and health 203, 204
effects of exposure 203
need for level control 204
populations at risk 203
prevention 204
source of radiation in man 203
sources of exposure 203
Tuberculosis control 188, 189
history 188
need for research institutions 189
present position 188

PAGE

role of WHO 189
Typhoid carriers in Riyadh City 97, 98
enteric organisms frequency 98
frequency and distribution 98
nationality distribution 97

Uckfield health fayre 220, 221
aims and description 220
motivation 221
working with schools 220
teaching methods 221
Umbilical cord and maternal blood 59
blood lead in mother and fetus 59
correlation of lead concentrations 59
lead values 59
Unemployment — ameliorating effects of 222–225
loss of status 222
need for structural activity 224
preparation for job loss 223
problems of leisure time 223
reactions of family 222
role of relaxation training 224

Women doctors and women patients 115–118
Agenda for Primary Health Care Report 116
in general practice 115
need for equality of opportunity 118
Office of Population Census Studies (OPCS) 116
Women and the Health Service Report 116
Women in pharmacy 117
